## General Comment

Please rescind the license for the use of Glyphosate. There is literally NO reason this chemical should be used anymore given it's serious health risks. It is found in so many things in our environment now the levels at which the American people are being exposed are seriously dangerous. It is common knowledge that glyphosate causes very serious health problems. Since this chemical is banned in other developed countries we as Americans know the decision to renew this license would be purely monetary and or political and have nothing to do with the health or common good of Americans. Please stop poisoning America to protect your political affiliations.

Docket ID #: EPA-HQ-OPP-2016-0385
